BREATHABLE NON-ASPHALTIC ROOFING UNDERLAYMENT ABSTACT OF THE DISCLOSURE

A non-asphaltic roofing underlayment that is breathable, water resistant and skidresistant is disclosed. The non-asphaltic roofing underlayment includes a woven or nonwoven substrate in which at least one surface thereof includes a breathable thermoplastic film disposed thereon. The breathable thermoplastic film imparts water-resistant to the substrate as well as maintains the breathability of the substrate.
